

CPR Pro for the Professional Rescuer

PROFESSIONAL TRAINING MADE EASY WITH AMERICAN SAFETY & HEALTH INSTITUTE

Train them like the professionals they are. With ASHI, you can deliver a comprehensive training experience designed for health care and professional emergency responders that's easy to learn and easy to remember.

Easy for your people...

- Students learn how to recognize a life-threatening emergency, how to provide basic life support, and what to do in case of an airway obstruction or choking
- Real-life scenario videos, full-color print materials, and easy-to-understand course content
- 2-year certification
- 4-5 hours for a comprehensive class that includes skills practice

Easy for you...

- Approved for training for Emergency Medical Services personnel and is accepted by the National Registry of Emergency Medical Technicians (NREMT)
- Currently approved or meets requirements for professional rescuer-level of training in more than 90 occupational markets
- Flexible content that can be customized to meet different teaching styles and learning needs

Course topics include:

- Patient assessment
- Sudden Cardiac Arrest
- CPR
- AED operation and troubleshooting
- Basic Life Support
- Choking
- Responding as a team
- Professional obligations such as consent, duty to act, DNR and DNAR orders
